Senior Frontend Developer with 10 years of commercial experience building scalable web and mobile products. Specialist in React, Next.js, and headless WordPress architectures. Known for reliable delivery, strong ownership, and actively integrating AI tools (Claude Code, Gemini, Cursor) into development workflows to accelerate delivery without compromising code quality. Founder of VeloDev — a freelance studio with 30+ live projects across e-commerce, SaaS, and marketplaces.

WORK EXPERIENCE

ROWEB08/2024 – Present
Senior Full-Stack / WordPress Developer — HoReCa SaaS Platform

- Maintaining and scaling a **WooCommerce SaaS platform** serving restaurant clients across Romania with online ordering, digital menus, and table management.
- Developing and shipping custom plugin features and REST API integrations on a **live multi-tenant production system**.
- Collaborating in a cross-functional team to ensure platform stability, zero-downtime deployments, and performance under peak load.

Lifetime Shutters & Windows — UK2019 – Present
Front End Developer — Long-term UK Client

- Owned and maintained a **custom WordPress product configurator** for 6+ years — sole developer responsible for all feature development, maintenance, and client communication in English.
- **Migrated the entire platform** from traditional WordPress to a headless Next.js architecture using WordPress as a CMS, deployed on Vercel — improving performance and enabling modern frontend patterns.
- Integrated **QuickBooks API** for automated product and invoice synchronization between WooCommerce and the client's accounting system.

Thecon2015 – 2024
Senior Front End Developer & Project Manager (3 years PM)

- Served as **technical architect and project manager** for a 5-person frontend team — leading sprint planning, code reviews, and client delivery across 30+ production websites.
- Built a **long-running WordPress product customization platform** from scratch, continuously evolving it with new features over multiple years.
- Developed **3 React Native mobile applications** for iOS and Android; implemented Material UI component systems and translated complex UX designs into production code.
- Contributed to hiring — conducted technical interviews and onboarded new frontend developers.

VeloDev / Shutter Nes Crazy SRL2020 – Present
Founder & Freelance Developer

- Founded and operate a **freelance web studio** delivering 30+ live projects across e-commerce, SaaS, marketplaces, NGOs, and agency clients.
- Full ownership from scoping and architecture to deployment and post-launch support — working directly with Romanian and international clients.
